MAP

3 high schools will come on the day

Hyogo Prefectural KOBE high school

Kobe high school is renowned for its high level education in science. It offers various international exchange programs. It's famous for its long tradition. Designated as a "Super Science High School" by the government several times.

Hyogo Prefectural HYOGO Senior High School

Hyogo High School is designated as SGH: Super Global High School by Japanese government. It started in 2014, in order to educate global leaders who can be active internationally, motivating students to foster interest in social issues.

SHINWA girl's senior high school

Shinwa girl's senior high school is to cultivate individuals who possess both a science mind and a global mind, essential for the international society of the future. Surrounded by beautiful surroundings and equipped with rich facilities, the students are engaged in learning in each course.
